

Make a Family Jig Saw Puzzle
Summer Upstander Activity Club
Week Three

This is a project that can be done as a team, and it should be of your family. This puzzle can be a picture of your whole family, your favorite cousins, or even you and a pet. You could even draw a picture of your family!

Here is what you'll need:

Image – A photo, print out, magazine page, a drawing you created.

Thick paper – A cereal box is really the perfect thickness for this project. You could use an old tissue box, or the cardboard from a shoe box.

Glue & a paintbrush or a q-tip.

Scissors – you can ask an adult to help with this part if you like

The puzzle pattern: see the bottom of the page!

1. Print out the puzzle pattern you like best.
2. Using the cardboard from a cereal box, lightly glue the puzzle pattern to the cardboard, so you can see the pattern. Use your paint brush or qtip so its smooth.
3. Flip it over, and glue the picture you like to it. Let this dry all the way. It might be best to place a few heavy books on top, so that it dries very flat.
4. Carefully, using scissors cut the pieces out! Congrats! You made your very own puzzle!

Remember to send us photos of you working on your project! You will be entered in a raffle to win cool prizes. Each photo is an extra entry in the raffle! Send those pics to education@ilhmec.org.
